

REMARKS

In response to the Office Action mailed on March 17, 2009, Application responds as follows. Claim 39 has been amended to better claim the subject matter of the present invention. Applicant appreciates the kind attention and help given by the Examiner in reviewing the amendments to Claim 39 in an Interview held on June 15, 2009.

In the Interview of June 15, 2009 Applicant's attorney Daniel Gurfinkel and the Examiner discussed proposed amendments to Claim 39. The Examiner expressed that she would need to conduct a further search but found that the amendments were sufficient to overcome the rejections based on the art found to date.

The Office Action has rejected the claims under 35 USC Section 103(a) as being unpatentable over a number of references, all of which have been previously discussed. Applicant avers that as a result of the amendments to Claim 39 the scope of the claims is not taught by any of the cited references or any combination thereof.

Applicant hereby respectfully requests the withdrawal of the rejections of the Office Action and continued prosecution, reconsideration and reexamination. Applicant believes that this is a response to all of the points raised in the Office Action. A sincere effort has been made to overcome the Office Action's rejections and to place the application in allowable condition. Applicant invites the Examiner to call applicant's attorney to discuss any aspects of the invention that the Examiner may feel are not clear or which may require further discussion.

Serial No. 10/522,291
Applicant: Prentice et al.
Date: June 16, 2009

In view of the above arguments, Applicant suggests that the Application is in order for allowance, and requests that a notice of allowance issue.

Respectfully submitted,
HUSCH BLACKWELL SANDERS
WELSH & KATZ,
